

WEBINAR

Enabling Gender Responsive and Equity Focused Evaluation

31st January 2014

10:00 to 11:00 AM (EST)

Hosted by

EvalPartners Equity Focused and Gender Responsive (EFGR) Task Force

Facilitated by

Professor Donna M. Mertens, Gallaudet University

We are delighted to announce a WEBINAR on Enabling Gender Responsive and Equity Focused evaluation (EFGR), as part of the EvalPartners initiative. This is the second WEBINAR organised by the Task Force with particular responsibility for promoting EFGR evaluation.

The WEBINAR theme

Donna Mertens will address enabling factors that are relevant to sustaining and encouraging a gender responsive/equity focused orientation for evaluative practice, with specific attention given to the issues of stakeholders' involvement. Evaluators can play a role in advocating for gender responsive and equity focused evaluation by persuasively engaging with a full range of stakeholders, from those who represent marginalized groups to those who represent national evaluation systems and donors. A framework for addressing the cultural and linguistic complexities will be used to illustrate successful strategies and encourage participant's application of these practices.

The presentation will be followed by a discussion where online participants will have the opportunity to raise questions and make their interventions via online chat facility.

Donna M. Mertens, PhD

Donna is a professor in the Department of Education at Gallaudet University and serves as the editor for the Journal for Mixed Methods Research. She conducts and consults on gender responsive and equity focused evaluations in many countries, including Kazakhstan, India, Sri Lanka, Australia, New Zealand, Botswana, South Africa, Brazil, and Egypt. The primary focus of her work is transformative mixed-methods inquiry in diverse communities that prioritizes ethical implications of evaluation, in pursuit of social justice. Her recent books include Program Evaluation Theory to Practice: A Comprehensive Guide and Transformative Research and Evaluation.
